The Business Administration Faculty - building upon the traditions of its predecessor, the College of Szolnok – wishes to continue its training in economic studies and to improve its further education with BSc and MSc courses. The main goal of the courses is to meet the demands of the workforce in a practical way as well as providing the necessary labour force of the region. The Faculty is one of Hungary’s most dynamic organization of higher education. With approximately 1,000 students and a full time academic staff of 70 and professional visiting lecturers from successful enterprises the faculty offers a wide range of study programmes and services for its national and international students and its partners. The campus lies on both sides of the River Tisza. The Educational buildings can be found in the beautiful sport and recreational area of the town Szolnok, the Residence Hall and the library in the centre of the city – the two are connected by Central Europe’s longest pedestrian and bicycle bridge. If you are a student or a staff member you can rent bicycles for free and ride around the campus and in the city centre.
